

EDITORIAL

The papers selected for this edition discuss several themes in Systems and Computing. We thank the authors and readers for the dissemination and growth of the Journal of Systems and Computing - Revista de Sistemas e Computação (RSC) as an important means of disseminating academic and scientific works. This allows researchers and students in the field of Computer Science, Information Systems, Computer Engineering, and related fields to find work with diversified topics to support their research and work.

In this issue we will have the following papers:

- CPP-Admin: An Engine and DSL to Automate the Development of Web CRUD Applications in C+
- Rumo à Regularização Fundiária Rural: Um Chatbot Conversacional com o Objetivo de Obter Documentos Necessários
- Desafios na Utilização de Redes em Malha Sem Fios para a Detecção de Aves no Contexto da Agricultura Inteligente
- Transformando a Gestão de Espaços: Integração de Sistemas para Reservas de Salas na UFERSA
- Uma Estratégia Híbrida Baseada em PSO para a Inicialização de Centróides no Algoritmo K-means
- Roteadores Mal Configurados: Porta de Entrada para Ameaças Cibernéticas nas Redes Domésticas e Empresariais
- Uma proposta de algoritmo para treinamento de redes neurais artificiais: primeiros resultados em uma comparação com SGD, Adam e AdraGrad
- Optimizing ETL Applications: A Refactoring and Containerization Approach
- Classificação de Pacientes com Risco de Obesidade e DCV Utilizando Técnicas de Clusterização Não Supervisionada

The Journal of Systems and Computing (Revista de Sistemas e Computação) consolidate itself as a solid reference for academic works. Currently, the RSC has in its scientific committee professors from several Brazilian institutions, from all geographic regions of Brazil, as well as from renowned international institutions, e.g. Universidad Nacional de Rosario (Argentina). We receive articles for evaluation from higher education institutions from all geographic regions of Brazil. We hope that these articles can contribute to your research and that they serve as an incentive for submitting your work to the RSC.
