

EDITORIAL

The papers selected for this edition discuss several themes in Systems and Computing. We thank the authors and readers for the dissemination and growth of the Journal of Systems and Computing - Revista de Sistemas e Computação (RSC) as an important means of disseminating academic and scientific works. This allows researchers and students in the field of Computer Science, Information Systems, Computer Engineering, and related fields to find works with diversified topics to support their research and work.

In this issue we will have the following articles:

- Estratégias de otimização no desenvolvimento de aplicações de realidade aumentada;
- Explorando as operações básicas de matemática com o Scratch: Um estudo de caso no Ensino Fundamental II;
- FIFC Uma Ferramenta de Injeção de Falhas em Ambientes de Nuvens;
- A Study on Acoustic Bird Detection in the Context of Smart Agriculture
- Blockchain na Educação: Análise Competitiva de Plataformas para Emissão de Diplomas

The Journal of Systems and Computing (Revista de Sistemas e Computação) consolidates itself as a solid reference for academic works. For this edition we will have articles from researchers from education and research institutions in Portugal and Brazil, which highlights the quality of our publications.

Currently, the RSC has in its scientific committee professors from several national institutions, from all geographic regions of Brazil, as well as from renowned international institutions, e.g. Universidad Nacional de Rosario (Argentina). We receive articles for evaluation from higher education institutions from all geographic regions of Brazil. We hope that these articles can contribute to your research and that they serve as an incentive for submitting your work to the RSC.

Prof. Dr. Paulo Caetano da Silva
Universidade Salvador (UNIFACS)
Chief editor

Prof. Daniel José Díaz
Universidad Nacional de Rosario (UNR)
Chief editor (convidado)
